Use of bioactive fraction from *cow urine distillate* ('go-mutra') as a bio-enhancer of anti-infective, anti-cancer agents and nutrients

**Abstract**

The invention relates to a novel pharmaceutical composition comprising an effective amount of bio-active fraction from *cow urine distillate* as a bioavailability facilitator and pharmaceutically acceptable additives selected from anticancer compounds, antibiotics, drugs, therapeutic and nutraceutical agents, ions and similar molecules which are targeted to the living systems.
